Piping Supply Europe

The Cost Engineering knowledgebase Piping Supply Europe gives you all the data you need for piping materials. With a broad range of sizes and materials included, the knowledgebase Piping Supply Europe holds all the information you need to estimate your projects quickly and accurately.

All facets of piping supply are covered by this knowledgebase, such as the cost of actual units. All projects you are looking for can be covered easily from the information available from this knowledgebase.

“Data that helps you materialize your estimates”

The screenshot displays the 'Unit-Rates' section of the software, showing a list of piping materials with their respective units, quantities, costs, and labor rates. The table is organized into columns for Unit, Cost, Labour hours, Labour description, Labour rate, Cost category, and Discipline.

Level ID	Description	Unit	Quantity	Cost	Total cost	Labour hours	Labour rate	Cost category	Discipline

Piping Supply Europe

Knowledgebase Specifications

Piping Supply Europe

Piping:

Activities:

- Supply

Components:

- Pipe
- Fittings; such as:
 - Elbows
 - Reducers
 - O-lets
 - Caps
- Flanges; such as:
 - Welding neck flanges
 - Blind flanges
- Valves

Ranges:

- Diameter ½"60"
- Wall thickness Schedule 5 - XXS
- Rating (pounds) 150# - 2500#

Materials:

- Carbon Steel
- Low Temperature Carbon Steel
- Stainless Steel
- Duplex
