

Scaffolding Europe (DACE)

Scaffolding Europe (DACE)

The Cost Engineering knowledgebase with information on Scaffolding for Europe is based on the DACE Labour Norms as they are supplied on the DACE Labour Norms CD. However, where DACE only supplies the labour norms, Cost Engineering has added price information as well as other details to the knowledgebase. This means that the knowledgebase Scaffolding Europe now gives you all the data you need for scaffolding. From the wooden decking to building scaffolding around tanks and towers, the knowledgebase Scaffolding Europe holds all the information you need to estimate your projects quickly and accurately.

All facets of scaffolding are covered by this knowledgebase. From the cost of labour to the man-hours involved. The preambles also include definitions for scaffolding and guidelines to measure scaffolds. Whether you are looking at installation, removal, or rental, all projects you are looking for can be covered easily from the information available from this knowledgebase.

“ Data to support your estimates ”

Level ID	Description	Unit	Cost	Labour hours	Rental hours	Labour description	Labour rate	
Unit-Rates	Scaff, Corrugated sheeting (SP), install	m ²	24,44	0,40	0,00

Scaffolding Europe (DACE)

Knowledgebase Specifications

Scaffolding Europe (DACE)

Scaffolding:

Activities:

- Installation
- Removal
- Rental

Components:

- Basic scaffold
- Independent scaffold
- Birdcage scaffold
- Aluminium scaffold
- Scaffold tent
- Mobile tower scaffold
- Frost protection
- Ladders
- Stairs
- Wooden decking
- Steel grid floor
- Tarpaulin cover
- Wind permeable net
- Shrink foil
- Protective framework
- Safety bar
- Safety fence
- Open web girder
- Ground clamp

Labour rate:

- Scaffolder
